

Sing the Alphabet Song

Sing the Alphabet Song and become familiar with letter names and their order.

Helps Your Child Grow

Print and Alphabet Knowledge

Repeatedly singing the alphabet song and identifying letters helps your child learn letter names and order, notice letter shapes, and build early alphabet knowledge.

Steps

- For a child learning English as an additional language, the familiar “ABC Song” is a playful place to begin exploring letter names.
- Listen and sing: Play the song at home and invite your child to join whatever parts become familiar.
- Follow an alphabet chart: Sing slowly and point to each printed letter as you hear its name.
- Add movements: Use your hands or body to suggest a letter’s shape - for example, touch your fingertips overhead to make a pointed A.
- Take turns: Once the sequence is familiar, sing “A, B, C ...” and pause for your child to continue with “D.” Keep the exchange playful rather than testing.

Tips

- Add one layer at a time. Begin by listening several times, then introduce singing along, pointing to the chart, or taking turns only as the song becomes familiar.

Observations

- ☐ Sings the alphabet song along with the music
- ☐ Takes turns singing the alphabet song with you and recalls the letter sequence
